## Professional Summary

Aspiring Frontend and MERN Stack Developer with hands-on experience in React.js, JavaScript, Tailwind CSS, HTML5, CSS3, and responsive web development. Possesses practical skills in building modern user interfaces, implementing authentication systems, integrating databases, and creating responsive web applications through personal projects and continuous learning. Eager to contribute to a professional development team, gain industry experience, and further strengthen technical and collaborative skills. Passionate about learning new technologies, solving problems, and building applications that provide meaningful user experiences.

## Skills

**Frontend Development:** HTML5, CSS3, JavaScript (Basic-Advanced), TypeScript, GSAP (ScrollTrigger, basic animations, useGSAP hook), React.js, Responsive Design, SASS/SCSS, Tailwind CSS, Framer Motion (learning), Bootstrap, Flexbox, CSS Grid

**Tools & Backend:** Node.js, MongoDB, Firebase Authentication, Firestore Database, Git & GitHub, VS Code

**Design Principles:** Typography, Color Theory, Composition (implied through design projects)

## Projects

### Personal Portfolio

Built with React.js, GSAP, Tailwind CSS.

*Technologies: React.js, GSAP, Tailwind CSS*

### Cafe Bloom Landing Page

A simple, responsive website for a cafe, built by translating a Figma design into clean HTML and CSS.

Focused on semantic HTML structure and internal CSS styling to create a modern and accessible layout.

*Technologies: HTML, CSS, Figma*

### Static Portfolio

Built a fully responsive resume from scratch using semantic HTML5 and CSS Grid. Showcases personal information, skills, education, and contact details in a clean, professional layout. Designed to be accessible

and scalable across devices.  
*Technologies: HTML, CSS, CSS Grid, Responsive Design*

**Quiz App**

Built using HTML, CSS, JS.  
*Technologies: HTML, CSS, JavaScript*

**Notes Taking App**

A responsive and secure note-taking web application built with React. Allows users to create, read, update, and delete (CRUD) notes in real time. Features user authentication and protected routes. Key Features & Technologies: React Hooks (useState, useRef), react-router-dom, Firebase Authentication, Firestore, Tailwind CSS.  
*Technologies: React, Firebase Authentication, Firestore, Tailwind CSS, React Hooks, react-router-dom*
